Total	1915	1120	2314	2235	1590+	1295	975

A good paper but Mathematics careless.

Intelligent papers showing considerable knowledge: history rather weak.

Good; but many answers too short. Geometry a little careless.

Contrast the "thought" in the poem with that in the prose composition! Only Swinburne's can afford to write verse almost devoid of thought - like "Tyger" - and then because it is pure music. (This applies to nearly all the others). Much of the paper is good.

A very fair paper on the whole. Rough many answers are rather short. Maths shows very little effort. Morna could do better. She does not make the best use of her good (Morna from Morna's report).

In many subjects, good: algebra 3 should not be guessed but worked.

Very fair - rather weak in some places, but most of it shows honest effort. The work could reach a higher level. She are very sorry to lose her and our best wishes go with her.

Left to go to C. Andrews in 1926

Faith Parker. Born Dec: 1910 April 1909. Entered School Jan: 1922 Sept: 1923

Subject	Summer Term 1924 Form III	Autumn 1924 Form IV	East 1925 Form IV	Summer 1925 Form IV	East 1926 Form IV	Summer 1926 Form IV

Cardlessly shown up - Arith: answers do not make sense - Some subjects good.

Citizenship & Nat. Hist. good; hearts weak.

Rather unequal, but some very good.

Some questions excellent. Maths weak.

Rather weak in some places though English is good. However hard she finds Algebra she does it.

Her power of expression does not quite keep pace with her well placed mind. Her character is that of a girl who is not quite the drawer - for rare in older girls.

Left in

on account of illness

* Allowance made for work missed

Much very good, neatly shown up. The drawing is promising.

Absent in school in

Switzerland

Poetry appalling. She seems to write French with pleasure!

She has a good style (reduced to good) but some answers lack the shyness of a scholar. There is a little too much of the "I" in some of the answers. There is a little too much of the "I" in some of the answers. There is a little too much of the "I" in some of the answers.

Her work shows great improvement. (Many algebra questions set) Miss Van Strauberg's report.

A good level throughout (except music) and she shows much promise in mathematics.

Very clear on music, but she does try to find a level balance. Literature and science are not quite scientific. Her work is generally good all round.

The work is a very good standard throughout. The work is a very good standard throughout. The work is a very good standard throughout.

Connie has worked very hard. The work is a very good standard throughout. The work is a very good standard throughout. The work is a very good standard throughout.

The work is a very good standard throughout. The work is a very good standard throughout. The work is a very good standard throughout.

The work is a very good standard throughout. The work is a very good standard throughout. The work is a very good standard throughout.

The work is a very good standard throughout. The work is a very good standard throughout. The work is a very good standard throughout.

English weak - handicapping all her work.

A very fair amount of knowledge shown: Latin + French need attention.

Writing handicaps her: some places very weak.

Writing and spelling weak still - age at handicap. Her illness has evidently not given her much chance.

English very weak. Her work is unsatisfactory in many respects.

There are still some spelling slips.

Rather unequal - never very strong. Margaret has made good progress this term. Interest is evident. Conduct good.

Bee Morgan - Born April 1912 - Entered School April 1924.

Spelling & writing weak except when she is careful - Mathematics very good indeed.

Careful & intelligent work; a good standard.

A good level throughout. Algebra excellent.

A good paper - Mathematics very promising.

Betsy worked splendidly through the term. Her work is generally good all round. (Miss Van Stranburg's report)

In many parts very good especially English.

Very fair - rather weak in some places, but most of it shows sincere effort. She is not a very strong pupil. Her handwriting needs time to improve.

She shows intelligent interest in several directions: arithmetic promising. Good work & interest.

Arithmetic & Arithmetic (not set) correct.

Arithmetic & Arithmetic

Arithmetic

He does not remember much.

A very good little paper, but form slow for age. about 17 lines. (Miss Thompson reads)

His English & Arithmetic are very good.

It is evidently rather hard for him. Douglas has worked well in his new form though he has found some of the work some difficult.

Not very strong. Nature study seems to appeal to him most. Conduct excellent. about 13 times this far to the work difficult. must give closer attention.

555 + 85 = 640

Some subjects very good - but there are gaps.

Parts are good especially drawing & drawing. (Miss Van Straubingen report).
Very satisfactory progress - shows teacher's good talent for drawing.

Holding a little weak. She has a good knowledge in many subjects but her answers are generally for short.

Spelling uncertain: on the whole excellent.

Scipio V 2 is not quite the form of answer wanted - This 'history' not satisfactory. She finds her way through the difficult Geography & rather well. (Very good work and interest) Miss Van Stranberg's report.

Her spelling is much greater than her. The work is not often very good but it all shows interest and pains taken.

Spelling not too good. In most subjects the standard is good and interest shown. Betty has worked very well - has been very good & helpful.

Spelling rather weak. Some subjects are very good: math's rather irascible. Betty has worked steadily, but was thrown once by a fortnight's absence in the middle of the term.

Her English work is good though the thing it is not deep. She shows much conscientiousness. Care & real interest, esp. Writing. The discussion of history in India seems rather a brief history of events. Paragraphs are too short & standard spelling mistakes (e.g. rei) might be attacked in the effort of memory. I thought e.g. occasional case. Betty has done good work for the school & we shall miss her very much.

A very good term's work and examination.

He has made 16 pay and 100 marks. (this is a very good term's work.)

He shows interest in most of the work & has made a good attempt.

Some subjects are very fair for his age - but he seems to have retained very little. He has a little difficulty with the better work.

Michael's work is improving steadily, but he must give closer attention.

a good paper all round - very promising. Michael has worked harder this term and has made good progress.

Several weak subjects. The work is not so good as in the summer examination.

Programme of (this is a subject) Number

Tales very good - Geography good but work rather below average. He takes great interest in his work. About 16 times (misses 50 times long ca. 10 marks)
 George has much talent. Has his own and has suffered greatly.

Very fair but answers rather short. (miss Van der Burgh)
 George has more food progress this term than ready for a senior.

ROSALIND MUNDAHL: Born ^{Jan.} 1916. Entered School: Sept 1925

Too many gaps — unless she has been ill.

Rather unequal progress. Bible lessons & Composition very good.
(Miss Van Strien Gengelo report)

Quite satisfactory progress.

Marjorie Aitken: Born Nov. 1909. Entered School Jan: 1926.

The work has been thoroughly done: her ability & interest are very evident in those subjects which suit her best: the poor spelling is now 'Constitutional' for it demonstrates much when she is careful. Her joy has worked steadily throughout the term.	80	80

Some subjects are good and the writing is very fair throughout. Drawing shows much promise.

Answers neatly done but often too short. Mary has worked well fairly ready for a remove.

Some subjects are very good. She shows a lively interest. Mary is making rapid progress. Conduct very good.

Several answers are very good but there are some weak places. It is about average. Mary's work has been uniformly good.

Very fair, often good & well narrated. She seems to like music. Mary is making very satisfactory progress.

On the whole a good intelligent paper - but not in quite 2. The question should be repeated & that will prevent a foolish answer. Writing & spelling get a little weak. Mary has done some very nice work, but she would do still better with more equal concentration.

Her English is good. She shows promise in writing. Mary has put more effort into her work this term with very good results. Late 9 times.

Very fair; there are many good answers showing care & interest. Late twice.

Some very good answers: there is rather a weakness in actual data - facts -

Widely scattered.

Joan has worked very steadily during the term. She has done some good work for the school & we shall miss her very much.

Good on the whole. aut & metric excellent. Brenda has no red very well. Has done her best to catch up after Haeuto.

Let very strong in last subject. she shows an interest in music. Brenda has done some good work, but she still does not make enough effort to improve the subject she dislikes.

In the subjects she feels at home with. She has done well very often. But then she has not been diligent in the subjects much interest.

Good on the whole but sometimes she varies off the point rather. Repeat the question in the answer & that will save from foolish answers such as No. 2.

Brenda has done a good steady term's work. A good general level though then are weak places. She has good foundation's laid. Spelling a little uncertain. Brenda has done excellent work this term. We shall be sorry to lose her, & give her as much as we can for the future.

about 70

Some answers are good. History not very strong. Eileen's work has been uniformly good.

Some good answers, but many are weak. Math: show promise. Examination rather disappointing. Eileen has worked diligently with what.

A very fair level in most subjects, though some her very strong. Drawing. Eileen has not made as much progress this term as she did last term. She should put more effort.

It is not very strong, but nearly all answers are good. Eileen has worked well more steadily this term. She must strive to express herself more clearly.

Answers are very short though they show interest. Many disapp. in 9. Eileen has done good thoughtful work this term. She quite has a lot to be proud of.

The literature evidently appeals to her. Eileen has done good thoughtful work this term. She quite has a lot to be proud of.
